Search Notes

Examiner Minnifield,

Here are the results of the search you requested.

Please feel free to contact me if you have any questions.

STIC

Please do a commercial and interference sequence search on SEQ ID NO:16 and 27 of this application.

Please provide a paper copy of all results.

Thanks,
Minnifield

1-FUNCTION: Important streptococcal virulence factor which cleaves human fibronectin and degrades vitronectin. Also cleaves human LLIB precursor to form biologically active ILIB. Can induce apoptosis in human monocytes and epithelial cells in vitro, and reduces phagocytic activity in monocytic cells. Thus, may play a role in bacterial colonization, invasion, and inhibition of wound

A; Status: nucleic acid sequence not snown; translation not snown
A; Residues: 1-236 < NEA>
A; Cross-references: EMEL:X61562; NID:947299; PIDN:CAA43760.1; PID:947300
A; Experimental source: strain MGAS251 isolate California unassignd phage
A; Note: the nucleotide sequence was submitted to the EMBL Data Library, September 1991
A; Accession: S18788
A; Accession: S18788
A; Residues: 1-236 < NEZ>
A; Cross-references: EMBL:X61563; NID:947301; PIDN:CAA43761.1; PID:947302
A; Residues: 1-236 < NEZ>

Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
